Subject: For review: Updated bored tunnel folio
Attachments: BoredTunnel_foliov3_Apr09.pdf

We have made updates to the bored tunnel folio to conform it with our recent presentations and other materials. The main changes are:

Page 2: Updating the first bullet about the capacity of the bored tunnel alternative.

Page 3: Correcting the timeline and updating the funding information, particularly for King County.

Page 4: Removing the reference to MVET and updating descriptions in the project responsibility chart.

Please review and let me know if you have any further edits. We would like to take this to our outreach events this weekend, so comments by Friday afternoon would be appreciated.
